students in scientific practice and AP® test preparation; it also highlights careers and research opportunities in biological sciences.

Reading primary literature is an exciting, rewarding part of being a scientist and Reading Primary Literature will help get readers up to speed quickly in reading research articles. The booklet covers the parts of a research paper, succinctly explaining the aim of each section and how the paper works as a whole, and as a part of the larger world of science. Readers select a paper to evaluate, and this book guides them through that evaluation with clear explanations, directions for reading and analyzing the material, and applied questions to encourage critical reading skills. A list of sources
