certain norms while writing the code so
that the javadoc tool is able of run through
the java file and create the API
documentation.

~~How to Create Java API Documentation -
Developer.com~~

To create the API documentation, the

Online Library Api Java
Documentation In The Sap
E Sourcing Resource Guide
captains of Java ran a program called
javadoc. The javadoc program took lines
like these right out of the `PrintStream.java`
file and used the lines to make the
documentation that you see in your web
browser. Other Java programmers do the
same thing.

Online Library Api Java Documentation In The Sap ~~Making Sense of Java's API~~ ~~Documentation - dummies~~

After you find an interesting API and read documentation, you have to send a request – one single task for the server (receiving side). Metaphorically, it's like a conversation between two people: Someone (you) asks a question (request),

API documentation is traditionally found in documentation files but can also be found in social media such as blogs, forums, and Q&A websites. [45]

Traditional documentation files are often presented via a documentation system,
