A treacherous journey through the Wyoming wilderness brings great change and challenge to Jamis Johnson and his frontier family. His dream is to create a quality strain of horses for the demanding life of the expanding American frontier. His dream can become a reality with the purchase of a stallion from the stock of George Gray of the G Bar G Ranch in Laramie. Jamis leaves his family to trek through the foothills of the Rattlesnake Mountains, where he encounters Indians and battles the unforgiving elements of the rugged outdoors to reach Laramie before winter sets in. In his absence, his wife, Deborah, is left with the insurmountable endeavor of trying to provide for herself and her young son in a cold, cruel and dangerous environment. Their struggle to survive through astonishing circumstances will draw the reader into their world and provide a glimpse into what life was like for those American heroes who settled this great country and helped it to become a beacon to the downtrodden from the far corners of the earth.

Life for a teenaged girl in the western territory of Wyoming in the 1890's is filled with change. Alaina Marie is torn between the simple life she has grown to love, assisting her father in running a large cattle and horse breeding operation, and assisting her mother, an attorney at law, with a complicated legal case she obligated herself to in San Francisco, California. Little did Alaina know when she boarded the train with her best friend Badger, a grulla stallion, that neither of them

would ever reach California. Tragedy along the way would require her to call on the training her father had instilled in her from the time she was a child, exhibit courage she never knew she had, and challenge her to push herself to do the impossible. Somewhere along the way, she became a woman—a woman with a deep sense of right and wrong and a commitment to do everything in her power to make Wyoming Territory a better place to live...even if it cost her life. The amazing adventure of a seventeen-year-old girl traveling hundreds of miles on horseback through the dead of winter, while attempting to avoid a team of murderous men, will keep you riveted to every page.

This solid anthology makes a fine start at the effort in its title, *Reclaiming the American Library Past: Writing the Women In*. Like most good beginnings, it succeeds first by clarifying the status of the field and then by raising questions for subsequent scholars to ponder and pursue. *History of Education Quarterly*

The essays in this book contribute along several dimensions to the new scholarship on a profession and public service of vital importance for well over a century to American literacy, culture and invention. Their authors add to the individual and collective biographies of women who have founded and administered diverse institutions and taught succeeding generations of librarians. The worksites of influential women such as Anne Carroll Moore, Josephine Rathbone, and Grace Hebard, like the nameless paid and volunteer staff who have served as unrecognized catalogers and children's librarians, have varied. They range from the pioneering libraries and library schools of the settled East—including Brooklyn and the Harlem, Times Square, and Morningside Heights neighborhoods of Manhattan- the historically Black Howard University to the numberless small towns of the West. They include the raw A&M colleges of Arkansas, Utah, New Mexico, and similarly neglected centers of local and regional enlightenment.
