I Grew Up with Basketball is a fascinating and entertaining memoir of basketball's infancy and, for some, fuels the debate about the game's true origins by providing a counternarrative to the sanctioned history offered by the Hall of Fame. Though James Naismith's original concept is acknowledged, Basloe credits YMCA director Will for altering the game to be more exciting and fun to play as well as establishing early rules of play.

Curry grew up immersed in basketball as the son of 16-year NBA veteran sharpshooter Dell Curry. The younger Curry learned the intricacies of the game from his father. In Native American tradition, a warrior gained honor and glory by "counting coup" -- touching his enemy in battle and living to tell the tale. This is a modern story of... COUNTING COUP In this extraordinary work of journalism, Larry Colton journeys into the world of Montana's Crow Indians and follows the struggles of a talented, moody, charismatic young woman named Sharon LaForge, a gifted basketball player and a descendant of one of George Armstrong Custer's Indian scouts. But "Counting Coup" is far more than just a sports story or a portrait of youth. It is a sobering exposé of a part of our society long since cut out of the American dream. Along the banks of the Little Big Horn, Indians and whites live in age-old conflict and young Indians grow up without role models or dreams. Here Sharon carries the hopes and frustrations of her people on her shoulders as she battles her opponents on and off the court. Colton delves into Sharon's life and shows us the realities of the reservation, the shattered families, the bitter tribal politics, and a people's struggle against a belief that all their children -- even the most intelligent and talented -- are destined for heartbreak. Against this backdrop stands Sharon, a fiery, undaunted competitor with the skill to dominate a high school game and earn a college scholarship. Yet getting to college seems beyond Sharon's vision, obscured by the daily challenge of getting through the season -- physically and ps

FAMILY, FARM WORK AND PLAY; BASKETBALL FOR LEGENDARY COACH TOM BLACKBURN’S DAYTON FLYERS; WINNING THE 1962 NIT
Hal Schoen spent his childhood in the 1940s and ’50s with his 12 brothers and sisters on the family farm in west-central Ohio a few miles from the Indiana border. He recalls many chores on the farm. When his Dad sold his workhouses and bought a tractor, Hal eagerly awaited his chance to drive it. When the Case arrived, I jumped up on the seat and immediately reached for the foot pedal on the right I assumed to be the clutch. I could reach it with ease, but when I pushed as hard as I could it hardly budged. Seeing my bitter disappointment, Dad smiled and pointed out I had pushed on a foot brake. The Case had a hand-operated clutch, and I soon realized I could operate it efficiently. It was a joyful moment for me, but I didn’t foresee it marked the beginning of thousands of hours over the next ten or twelve years behind the wheel of the Case; hauling manure, plowing, tilling, planting, cultivating corn, mowing, tedding and side-raking hay, moving grain stubbles, baling straw and hay, loading loose hay, moving wagon-loads of grain, hay and straw, and on and on. (p. 31) The farm also served as a huge playground for young children, and Hal relates many fond memories of play on the farm including sports that he and his siblings enjoyed - baseball, softball and basketball. No one in the family before him had attended college, and he had little encouragement to consider it himself. Like many men in rural areas in his generation, my Grandpa Schoen was critical of people who wasted their time on books and school when there was farm work to be done. He often made fun of my siblings and me if he saw us reading a book, calling us “bookworms”. Before the practice violated truancy laws, he made sure his sons quit going to school each spring when the weather allowed the work in the fields to begin. To him going to school was a waste of time, and everyone should quit as soon as possible. He was especially adamant about girls in this regard, since in his outspoken view they were just going to get married, raise kids, and do house work anyway. They may as well get started doing so as soon as they could. Mom and Dad were not as dubious about the value of education as Grandpa but, like American society of the 1940s and 1950s, they were less supportive of education for their daughters than for their sons. (p. 97) As Hal grew older and taller circumstances fell into place that made it possible for him to attend the University of Dayton on a provisional basketball scholarship. I doubt there was ever a college freshman more homesick than I was for the first few weeks that Fall of 1959. Born and raised on our family farm, I had never lived anywhere else. I had very rarely slept in a bedroom other than the one I shared for years with my brothers. Life in a city, even in a small town, was completely foreign to me. I had traveled further than a hundred miles from home just once, on my senior trip. It is still painful for me to recall my loneliness and misery, beginning on the first day of registration. (p. 137) Hal was successful in his class work at UD, and with tenacity and some good luck, he became a starting forward on legendary coach Tom Blackburn’s first and only NIT championship team in 1962. Back home, my parents and younger siblings were glued to the family’s fuzzy, black-and-white 19-inch t.v. for all the NIT games. Pat recalled, “After the final game we went outside and ran around the house yelling and screaming. It was a thrill for all of us. What a great memory!” When the team returned on Sunday March 23rd, Mom, Dad, and a carload of siblings were in the crowd at the Dayton airport. After ten days in New York City competing in Madison Square Garden, I was struck the moment I saw them by the vast difference between the world I had just left and that of my childhood. (p. 180)

The first memoir for young readers by sports legend Kareem Abdul-Jabbar. At one time, Lew Alcindor was just another kid from New York City with all the usual problems: He struggled with fitting in, with pleasing a strict father, and with overcoming shyness that made him feel socially awkward. But with a talent for basketball, and an unmatched team of supporters, Lew Alcindor was able to transform and to become Kareem Abdul-Jabbar. From a childhood made difficult by racism and prejudice to a record-smashing career on the basketball court as an adult, Kareem Abdul-Jabbar's life was packed with “coaches” who taught him right from wrong and led him on the path to greatness. His parents, coaches Jack Donahue and John Wooden, Muhammad Ali, Bruce Lee, and many others played important roles in Abdul-Jabbar's life and sparked him to become an activist for social change and advancement. The inspiration from those around him, and his drive to find his own path in life, are highlighted in this personal and awe-inspiring journey. Written especially for young readers, Becoming Kareem chronicles how Kareem Abdul-Jabbar become the icon and legend he is today, both on and off the court.

Tales from the Wake Forest Hardwood chronicles how Wake Forest basketball could survive the university's relocation from the quaint town of Wake Forest to the city of Winston-Salem without ever leaving behind fans and followers.

What do Julius Erving, Larry Brown, Moses Malone, Bob Costas, the Indiana Pacers, the San Antonio Spurs and the Slam Dunk Contest have in common? They all got their professional starts in the American Basketball Association. The NBA may have won the financial battle, but the ABA won the artistic war. With its stress on wide-open individual play, the adoption of the 3-point shot and pressing defense, and the encouragement of flashy moves and flying dunks, today's NBA is still—decades later—just the ABA without the red, white and blue ball. Loose Balls is, after all these years, the definitive and most widely respected history of the ABA. It's a wild ride through some of the wackiest, funniest, strangest times ever to hit pro sports—told entirely through the (often incredible) words of those who played, wrote and connived their way through the league's nine seasons.

The long-awaited autobiography from Georgetown University's legendary coach, whose life on and off the basketball court threw America's unresolved struggle with racial justice into sharp relief. John Thompson was never just a basketball coach and I Came As A Shadow is categorically not just a basketball autobiography. After five decades at the center of race and sports in America, Thompson—the iconic NCAA champion, Black activist, and educator—was ready to make the private public at last, and he completed this autobiography shortly before his death in the historically tumultuous summer of 2020. Chockful of stories and moving beyond mere stats (three Final Fours, four-time national coach of the year, seven Big East championships, 97 percent graduation rate), Thompson's book drives us through his childhood under Jim Crow segregation to our current moment of racial reckoning. We experience riding shotgun with Celtics icon Red Auerbach and coaching NBA Hall of Famers like Patrick Ewing and Allen Iverson. What were the origins of the phrase “Hoya Paranoia”? You'll see. And parting his veil of secrecy, Thompson brings us into his negotiation with a D.C. drug kingpin in his players' orbit in the 1980s, as well as behind the scenes of his years on the Nike board. Thompson's mother was a teacher who had to clean houses because of racism in the nation's capital. His father could not read or write. Their son grew up to be a man with his own larger-than-life statue in a building that bears his family's name on a campus once kept afloat by the selling of 272 enslaved Black people. This is a great American story, and John Thompson's experience sheds light on many of the issues rolling our nation. In these pages, he proves himself to be the elder statesman whose final words college basketball and the country need to hear. I Came As A Shadow is not a swan song, but a bullhorn blast from one of America's most prominent sons.
