Management Accounting For Decision  
Makers

Management Accounting for Decision  
Makers is a well balanced book that  
will illustrate the many complexities  
and advantages of understanding cost  
and performance accounting and  
management. This was the textbook  
for my masters' course on  
Management Accounting, and I found  
it to be well balanced between the  
technical, detailed complexities of  
management information systems and  
the general managerial perspective.

Atrill & McLaney, Atrill: MADM\_p7, 7th Edition | Pearson

In management accounting, the approach to decision-making is basically quantitative. Management accounting deals with those decisions that require quantitative data. In a technical sense, management accounting consists of mathematical techniques or decision models that assist management in making quantitative type decisions.
