~~Your muscles use carbohydrate quickly and can easily deplete that store during a Marathon. If you provide your muscles with carbohydrate by consuming gel as you run, they will take less fuel from your carbohydrate store and it will last longer. The purpose of taking gel during your marathon is to delay the point at which you run out of fuel - until you cross the finish line.~~

~~Puppy nutrition~~ Puppies grow rapidly. At times during their rapid growth and development from weaning until approximately 4 to 6 months of age, puppies, depending on the breed size, require approximately three times more calories, proteins, vitamins and minerals per kilogram of body weight as adult dogs of the same breed size and a higher nutrient intake to support their growing bodies.
