This book provides the very latest in position statements, and new, forward-thinking in administrative strategies. Addresses fiscal management of outpatient cancer centers, including financial systems models, use of CPT codes, cost effectiveness and clinical applications of evidence-based practice guidelines.

The IOM's National Cancer Policy Forum held a workshop October 5-6, 2009, to examine how to apply the concept of a 'rapid learning health system' to the problem of cancer. This document summarizes the workshop.

Nurse's Chemotherapy Quick Pocket Reference is a portable, quick reference guide to chemotherapy dosing administration and information, arranged alphabetically by cancer type. All the chemotherapy drug information you need in the palm of your hand!

The American Joint Committee on Cancer's Cancer Staging Manual is used by physicians throughout the world to diagnose cancer and determine the extent to which cancer has progressed. All of the TNM staging information included in this Sixth Edition is uniform between the AJCC (American Joint Committee on Cancer) and the UICC (International Union Against Cancer). In addition to the information found in the Handbook, the Manual provides standardized data forms for each anatomic site, which can be utilized as permanent patient records, enabling clinicians and cancer research scientists to maintain consistency in evaluating the efficacy of diagnosis and treatment. The CD-ROM packaged with each Manual contains printable copies of each of the book's 45 Staging Forms.

Oncology for Veterinary Technicians and Nurses is a handbook of cancer care from the technician perspective. Providing information on cancer from cause to treatment, this comprehensive resource focuses on the nursing role, emphasizing technical procedures, staging, and patient support. By equipping veterinary support staff with the information they need to properly and safely perform cancer treatments, Oncology for Veterinary Technicians and Nurses promotes working as part of a team to provide optimal care for dogs and cats with cancer.

Prepare for the future of diagnostic coding with the most comprehensive version which presents the complete ICD-10-CM code set in 21 complete chapters.

??? Inpatient Dermatology is a concise and portable resource that synthesizes the most essential material to help physicians with recognition, differential diagnosis, work-up, and treatment of dermatologic issues in the hospitalized patient. Complete with hundreds of clinical and pathologic images, this volume is both an inpatient dermatology atlas and a practical guide to day-one, initial work-up, and management plan for common and rare skin diseases that occur in the inpatient setting. Each chapter is a bulleted, easy-to-read reference that focuses on one specific inpatient dermatologic condition, with carefully curated clinical photographs and corresponding histopathologic images to aid readers in developing clinical-pathologic correlation for the dermatologic diseases encountered in the hospital. Before each subsection the editors share diagnostic pearls, explaining their approach to these challenging conditions. This book is structured to be useful to physicians, residents, and medical students. It spans dermatology, emergency medicine, internal medicine, infectious disease, and rheumatology. Inpatient Dermatology is the go-to guide for hospital-based skin diseases, making even the most complex inpatient dermatologic issues approachable and understandable for any clinician.

Updated with 2012 CPT changes! Hospitals have long struggled under complicated guidelines for coding injection and infusion services. But those days are over. Now, using a simple coding decision tree as your guide, you can master coding for these common procedures without having to master complex coding guidelines. The Injections and Infusions Coding Toolkit was developed by the staff at The University of Texas MD Anderson Cancer Center, a high-volume and world-renowned cancer treatment facility in Houston, TX. They designed a tool that makes it easy for staff to capture correct codes at point-of-service -- or for coders to use to assign appropriate codes to bill. The toolkit takes the guesswork out of: * Selecting the initial service * Deciding which codes can be reported in combination with other codes Your toolkit is updated with 2012 CPT changes and includes everything you need to get started today, including: * 5 copies of the color-coded, laminated coding decision tree * 5 copies of pocket-sized "cheat sheets" to help identify frequently used codes * A CD-ROM with the coding tree files you can customize for your facility * A PDF training guide and a PowerPoint training presentation
