Confronting trauma behind the transnational adoption system—now back in print Many adoptees are required to become people that they were never meant to be. While transracial adoption tends to be considered benevolent, it often exacts a heavy emotional, cultural, and economic toll on those who directly experience it. *Outsiders Within* is a landmark publication that carefully explores this most intimate aspect of globalization through essays, fiction, poetry, and art. Moving beyond personal narrative, transracially adopted writers from around the world tackle difficult questions about how to survive the racist and ethnocentric worlds they inhabit, what connects the countries relinquishing their children to the countries importing them, why poor families of color have their children removed rather than supported—about who, ultimately, they are. In their inquiry, the contributors unseat conventional understandings of adoption politics, reframing the controversy as a debate that encompasses human rights, peace, and reproductive justice. Contributors: Heidi Lynn Adelman; Ellen M. Barry; Laura Briggs, U of Massachusetts, Amherst; Catherine Ceniza Choy, U of California, Berkeley; Gregory Paul Choy, U of California, Berkeley; Rachel Quy Collier; J. A. Life, liberty, and the pursuit of happiness are prescribed ideals in America of 2050. The Moral Authority, the nation's newest branch of government, has virtually eliminated crime, poverty, and most social ills, but it also rules the land with a tyrannical fist, championing ignorance and brandishing fear. Mark Bryan is a gay man whose existence brands him an outlaw; Isaac Montoya is a charming stranger, who entices Mark to defy moral law; and Samuel Pleasant runs the Moral Authority and plans to punish moral offenders and a rebellious uprising-no matter the cost. Will liberty and justice return for all?

A smart, funny take on the Charles Dickens classic BLEAK HOUSE—for anyone who's ever held on to a dream just a little too long. New York writer Ricki Carstone knows the odds of Hollywood actually turning her debut novel, Jarndyce and Jarndyce, into a movie are slim. But Moxie Bernard, the most famous teen on the planet, has signed on to star in the option. Plus, the producer is throwing her a super fabulous party in Hollywood (with Moxie!) to celebrate the relaunch of her book with a younger, sexier cover. Maybe it will happen after all. Quitting her dead-end paralegal job to move out to Los Angeles and keep an eye on the project, Ricki meets a handsome out-of-work actor who encourages her to try her hand at screenwriting, and an experienced screenwriter who is willing to help her for a fee, which only starts out small. And then there's her cute neighbor Simon, who thinks her new friends are just taking

advantage of her. Will Ricki ever see her name in lights and make it big in Hollywood?

Two stolen Pakistani nuclear bombs, a conspiracy to manipulate the global market in rare earths and a plot to assassinate the President of the United States. It's going to be a busy week for Ali Monpour, special investigator for the National Security Advisor. Rare Earths is a fast-paced political thriller ripped from today's headlines! Action and intrigue intertwine from the deserts of Balochistan to the halls of power in Washington, D.C.

All Jack Falcone wants to do is be a veterinarian. While hoping to get into school he spends his mornings at the gym, days working at the zoo and his evenings studying. When Adam Buckminster, the man who just may hold the key to Jack's acceptance to school shows up at the gym and begins gaining impossible strength despite doing everything wrong, Jack's life suddenly starts down a spiral of improbable events. Only with the help of the massive Brock Steele and the self-proclaimed knight Wallace Claymore can Jack hope to get things back to normal. A witty, unbelievable romp through the streets of Buffalo, New York ensues that forces the trio to dance the magical line between science and myth.

It was 3:15 in the a.m.... When popular chanteuse and dancer of no fixed pole, Maxine Boukowski, entered the office of Mercy Wilson, neither could've foreseen the carnage and chaos that was about to unfold. Up-market Gene-Freaker, Dr Munroe, had already sold 12 of her eggs - and the 13th was supposed to be her son. But the dozen Fast Breeders have been ritually slaughtered, Doc's gone into hiding, and Maxine wants her baby boy, no matter what the cost. Meanwhile, Johnny Neutrino's back in

town, Nurse Jackson from the Agency is on the warpath, along with the Nebreshi High Council. And, Johnny being Johnny, you just know it's never going to end well. Welcome to New Chicago, a metropolis on New Earth, and a whole new world full of walking, talking Garbage - though most of it likes to call themselves Citizens.

As environmental problems become increasingly complex, it is critical that students and activists learn the skills with which to address them. Although there already are many case studies of actual issues, only in the last few years have environmental scientists paid close attention to their resolution. Environmental Problem Solving teaches these skills. Jeffrey W. Hughes creates an organized method for approaching problems, understanding larger issues, and crafting solutions to a wide range of contemporary environmental issues. Many environmental activists often have preconceived ideas of environmental protection and problem solving. They react emotionally to news of deforestation, a new housing development, or a planned big-box store without thinking about the problem logically, and they may automatically regard foresters, development companies, and corporations as opponents. As their views harden, discourse turns acrimonious, and it becomes ever more difficult to find satisfactory solutions. This book teaches those on both sides of the table to address their own preconceptions and approach hard issues critically, methodically, and fairly. Hughes combines aspects of the decision-making process from the fields of business, management, and communication science based on extensive research and ample practical experience in the field and classroom. He creates a logical framework to help guide thinking from identifying a problem to finding its solution. Using examples drawn from real-life situations, Environmental Problem Solving will become an invaluable guide for environmentalists, agency professionals, consultants, students, naturalists, and concerned citizens.

An apocalyptic adventure of awakening, madness, and revelation, *Sonspot*, is the tale of Mac—a coming-of-age man who is plagued by supernatural nightmares. Fed up with the depraved world he was born in, he asks for death. What he gets is the complete opposite; buried memories of his eternal soul on the Island of Eden and the damnation that follows. With the aid of a magic gum, the mysterious divine flow unfolds before Mac and his best friend, leading them on an adventure through the nine levels of hell; answering one fundamentally scary question that haunts us all to our grave.
