What makes it different is that the heroine, Brigid Quinn, is a 59-year-old retired FBI agent with a difficult past. She has found love and security, but becomes unwittingly involved in a serial-killer investigation into the rape, murder, and mummification of young women. This novel is very smart, frightening and often funny - and it's refreshing that its attractive heroine is middle-aged, but with her powers undimmed.

You have never met an (ex) FBI agent like Brigid Quinn "Keeping secrets, telling lies, they require the same skill. Both become a habit, almost an addiction, that's hard to break even with the people closest to you, out of the business. For example, they say never trust a woman who tells you her age; if she can't keep that secret, she can't keep yours. I'm fifty-nine." Brigid Quinn's experiences in hunting sexual predators for the FBI have left her with memories she wishes she didn't have and lethal skills she hopes never to need again.

Having been pushed into early retirement by events she thinks she's put firmly behind her, Brigid keeps telling herself she is settling down nicely in Tucson with a wonderful new husband, Carlo, and their dogs. But the past intervenes when a man named Floyd Lynch confesses to the worst unsolved case of Brigid's career—the disappearance and presumed murder of her young protégée, Jessica. "Former FBI agent Brigid Quinn, with her trademark toughness, raw humor, and human frailty, is back and better than ever in Masterman's latest novel. As Quinn is drawn into an infamous cold case with a possible link to the two killers immortalized by Truman Capote's *In Cold Blood*, she finds danger closing in. A gripping premise, brilliantly executed—you won't be able to put this one down!"—Shari Lapena, *New York Times* bestselling author of *The Couple Next Door* In 1959, a family of four were brutally murdered in Holcomb, Kansas. Perry Smith and Dick Hickok were convicted and executed for the crime, and the murders and their investigation and solution became the subject of Truman Capote's masterpiece, *In Cold Blood*. But what if there was a third killer, who remained unknown?

What if there was another family, also murdered, who crossed paths with this band of killers, though their murder remains unsolved? And what if Dick Hickok left a written confession, explaining everything? Retired FBI agent Brigid Quinn and her husband Carlo, a former priest and university professor, are trying to enjoy each other in this new stage in their lives. But a memento from Carlo's days as a prison chaplain--a handwritten document hidden away undetected in a box of Carlo's old things--has become a target for a man on the run from his past. Jerry Beaufort has just been released from prison after decades behind bars, and though he'd like to get on with living the rest of his life, he knows that somewhere there is a written record of the time he spent with two killers in 1959. Following the path of this letter will bring Jerry into contact with the last person he'll see as a threat: Brigid Quinn. Becky Masterman's unputdownable thrillers featuring unique heroine Brigid Quinn continue with this fascinating alternative look at one of America's most famous crimes.

Winner of the Tony Hillerman Fiction Award "A crime novel that transcends the genre—a twisting, high-stakes story with characters so real and so recognizably human, that it breaks your heart a little. Brilliant."
