Reading Public Opinion: How Political Actors View the ...
Public opinion is one of the most elusive and complex concepts in democratic theory, and we do not fully understand its role in the political process. Reading Public Opinion offers one provocative approach for understanding how public opinion fits into the empirical world of politics. In fact, Susan Herbst finds that public opinion, surprisingly, has little to do with the mass public in many instances.

This view of public opinion is consistent with the idea of popular election in that every citizen is entitled to an opinion\in essence a vote\on a particular issue, policy, or leader. In the end, the position that is taken by the most people\in other words, the position that receives the most votes\is the one that should be adopted by policymakers.

Reading: What Is Public Opinion? | American Government
One purpose of public opinion in a democracy is to inform public policymaking. Opinion polls provide a mechanism for succinctly presenting the views of the mass public to government leaders who are making decisions that will affect society. Leaders often monitor the public pulse when making policy decisions, especially when they face an election campaign. Perspectives about the relationship of public opinion to policymaking differ vastly.

Reading Public Opinion: How Political Actors View the ...
Public opinion occupies an important place in democracy. The democratic government derives its powers from the public opinion and it is based on it. Each government tries to keep the public opinion in its favour and it should not go against it at any cost. The ministers are very much afraid of the criticism voiced in the press.

Despite more than 50 years of research on political parties and citizens, we continue to lack a systematic understanding of when and how political parties influence public opinion. We suggest that alternative approaches to political parties and public opinion can be best reconciled and examined through a richer theoretical perspective grounded in motivated reasoning theory.
