21st century schools are also responding to demand by moving into international education. ISC Research have tracked these changes in their research. In the past, international schools were primarily for the families of military personnel and diplomats. In the year 2000 there were 2,500 international schools globally with fewer than one million ...

~~EDUCATION IN THE 21ST CENTURY—Think Strategic for Schools~~

Education in the 21st century is most accurately represented as a journey - a journey of exploration! This journey is guided by compasses, rather than maps. We are driven by the belief that in order to prepare today's students for success in life, schools must become "21st century" . . . . we are committed to partnering with and supporting you to make this vision a reality.

Leadership and 21st Century Education. If there is one factor that distinguishes successful 21st century schools and districts it is strong leadership. While individual teachers can adopt the practices of a 21st century classroom, the real impact on students is if an entire school and district embraces and works toward the same vision.
