Textiles Heat Manipulated Methods: The Basic 'Shibori ...

Itajime shibori is a shaped-resist technique. Traditionally, the cloth is sandwiched between two pieces of wood, which are held in place with string. More modern textile artists can be found using shapes cut from acrylic or plexiglass and holding the shapes with C-clamps. The shapes prevent the dye from penetrating the fabric they cover.

Pepa Martin and Karen Davis founders of boutique fabric house Shibori, explore the ancient Japanese art of shibori on modern fabrics for commercial and residential applications.

Shibori

Shibori is the Japanese term (from the word meaning "to squeeze or wring") for the dye-resist technique of binding, clamping or gathering the cloth so that the dye cannot reach certain parts. The result is a most powerful combination: a carefully structured design with the organic freedom of the unpredictable.

Shibori for Textile Artists by Janice Gunner

Like other forms of textile expression, shibori will survive and even thrive as long as artists continue to search for the creative possibilities in combining high-tech with handwork. In the 21 st century, we need technology to serve human needs—finding ways to conserve and replenish limited resources and using them more wisely and efficiently.
