This IAMSE Manual describes how to use rubrics in higher education, especially in the highly specialized health sciences education setting. The book provides a conceptual framework, practices and a series of checklists that lecturers can use to design their own rubrics for a variety of situations and content. It highlights varying perspectives, from teachers, students, educational advisors, and curriculum managers, while providing practical tips for developing and using rubrics. The objectives of the manual include guiding health sciences educators in: Providing useful, actionable and efficient feedback to students on assignments using a structured format (i.e. using rubrics) Implementing a learning culture where giving “rich feedback” is standard practice Using rubrics to increase quality of assessment of assignments (validity, reliability, transparency) Incorporating, in the instructional setting, latest insights in the appropriate use of rubrics in the health sciences education setting.

This book provides step-by-step procedures, student hand-outs, and samples of student work.

Self-regulation fuels students to become socially and emotionally engaged, lifelong learners. Jossey-Bass and PCG Education are proud to bring the Paths to College and Career English Language Arts (ELA) curriculum and professional development resources for grades 6-12 to educators across the country. Originally developed for EngageNY and written with a focus on the shifts in instructional practice and student experiences the standards require, Paths to College and Career includes daily lesson plans, guiding questions, recommended texts, scaffolding strategies and other classroom resources. Paths to College and Career is a concrete and practical ELA instructional program that engages students with compelling and complex texts. At each grade level, Paths to College and Career delivers a yearlong curriculum that develops all students' ability to read closely and engage in text-based discussions, build evidence-based claims and arguments, conduct research and write from sources, and expand their academic vocabulary. Paths to College and Career's instructional resources address the needs of all learners, including students with disabilities, English language learners, and gifted and talented students. This enhanced curriculum provides teachers with freshly designed Teacher Guides that make the curriculum more accessible and flexible, a Teacher Resource Book for each module that includes all of the materials educators need to manage instruction, and Student Journals that give students learning tools for each module and a single place to organize and document their learning. As the creators of the Paths ELA curriculum for grades 6-12, PCG Education provides a professional learning program that ensures the success of the curriculum. The program includes: Nationally recognized professional development from an organization that has been immersed in the new standards since their inception. Blended learning experiences for teachers and leaders that enrich and extend the learning. A train-the-trainer program that builds capacity and provides resources and individual support for embedded leaders and coaches. Paths offers schools and districts a unique approach to ensuring college and career readiness for all students, providing state-of-the-art curriculum and state-of-the-art implementation.

Teaching Online: A Practical Guide, 3rd edition is a concise, useful guide for educators teaching online. This new edition has been fully revamped and reflects important changes that have occurred since the second edition's publication.

This book takes a developmental perspective at the use of scoring rubrics to assess student work. Citing developmental characteristics of each age, the author presents examples and adaptations of assessment rubrics on a variety of subjects for teachers from kindergarten through adult/college. After a presentation of foundation information on rubrics, separate chapters are devoted to each grade level from primary through adult. Written so that each chapter can be addressed independently, the book provides additional chapters devoted to assessing technological topics and using rubrics with students with special needs. The final chapters provide practical information to help teachers to create their own rubrics and to covert rubric scores to letter grades. An updated annotated listing of recommended rubric websites is included.
