Our O-Rings are supplied in a wide range of standard sizes, types and shore hardnesses. Non-standard sizes are manufactured to order.

BS O-Ring Dimensions | PAR Group

nominal cross section O-Rings. Until now, O-Ring standards have left a gap between the 1/8 " and 3/16 " nominal cross sections. In designing this new group of O-Rings, we left spacing in the part numbers to allow us to add additional sizes should they be required. Please contact us if you are looking for a size not shown in the 5/32 ' group.

Buy O rings online | Rubber Seals | Eastern Seals (UK) Ltd

O-Rings are one of the most common seals used in seal design because they are relatively inexpensive and reliable. O Rings seals are available in various metric and standard sizes. UK standards sizes are known as BS Sizes (BS1806 for Imperial) and (BS4518 for Metric). In general o-rings are specified by internal diameter and the cross section.
