Principles of Repair for

Historic Buildings The

objective of repair is to

reduce the long-term

deterioration of a

building's fabric by

remedying the cause of any

defects. This in turn

sustains the significance of

the building, but to achieve

this there needs to be

sufficient information to

understand the impact of the
proposed repairs.

Historic research Assessing
the date of the structure is
a sensible place to start as
this will give clues to the
likely construction of the
masonry. For example,
medieval masonry is likely
to be very thick but may
consist of two well
constructed skins of cut
masonry or random rubble
with a rubble and mortar
core.
