### The Blockchain Revolution An Analysis Of Regulation And

Blockchain Revolution. by Don Tapscott & Alex Tapscott. Over 30 years, no theorist of the digital age has better explained the next big thing than Don Tapscott. For example, in Wikinomics Tapscott was the first to show how the Internet provides the first global platform for mass collaboration. Now, he writes about a profound technological shift that will change how the world does business—and everything else—using blockchain technology, which powers the digital currency Bitcoin.

### Blockchain Revolution

Blockchain analysis. The analysis of public blockchains has become increasingly important with the popularity of bitcoin, Ethereum, litecoin and other cryptocurrencies. A blockchain, if it is public, provides anyone who wants access to observe and analyse the chain data, given one has the know-how.

### Blockchain Revolution | Coursera

A type of distributed ledger technology (DLT), blockchain provides a platform for the management of high-value data and transactions. Unlike other DLTs, however, blockchain is 'trustless', requiring no intermediaries to ensure the validity of those data and transactions. For this primary reason, the technology is widely considered by energy leaders to hold great promise for catalysing and optimising existing business processes and transforming the existing energy market models.
