AVAILABLE FOR THE FIRST TIME IN eBook! In 1955, Garcia Marquez was working for El Espectador, a newspaper in Bogota, when in February of that year eight crew members of the Caldas, a Colombian destroyer, were washed overboard and disappeared. Ten days later one of them turned up, barely alive, on a deserted beach in northern Colombia. This book, which originally appeared as a series of newspaper articles, is Garcia Marquez's account of that sailor's ordeal. Translated by Randolf Hogan.

This impeccably researched and "adventure-packed" (The Washington Post) account of the obsessive quest by Christopher Columbus's son to create the greatest library in the world is "the stuff of Hollywood blockbusters" (NPR) and offers a vivid picture of Europe on the verge of becoming modern. At the peak of the Age of Exploration, Hernando Colón sailed with his father Christopher Columbus on his final voyage to the New World, a journey that ended in disaster, bloody mutiny, and shipwreck. After Columbus's death in 1506, eighteen-year-old Hernando sought to continue—and surpass—his father's campaign to explore the boundaries of the known world by building a library that would collect everything ever printed: a vast holding organized by summaries and catalogues; really, the first ever database for the exploding diversity of written matter as the printing press proliferated across Europe. Hernando traveled extensively and obsessively amassed his collection based on the groundbreaking conviction that a library of universal knowledge should include "all books, in all languages and on all subjects," even material often dismissed: ballads, erotica, news pamphlets, almanacs, popular images, romances, fables. The loss of part of his collection to another maritime disaster in 1522, set off the final scramble to complete this sublime project, a race against time to realize a vision of near-impossible perfection. "Magnificent... a thrill on almost every page" (The New York Times Book Review), The Catalogue of Shipwrecked Books is a window into sixteenth-century Europe's information revolution, and a reflection of the passion and intrigues that lie beneath our own insatiable desires to bring order to the world today.

The classic study of human nature which depicts the degeneration of a group of schoolboys marooned on a desert island.

Sir Ernest Shackleton and his expedition team's journey to the Antarctic continent in 1914 goes terribly wrong after their boat is trapped and crushed by ice, leaving them stranded in the most harsh conditions and fighting for their very lives with every step they took. Reprint.

Reframing the American story from the vantage point of the nation's watery edges, Jamin Wells shows that disasters have not only bedeviled the American beach—they created it. Though the American beach is now one of the most commercialized, contested, and engineered places on the planet, few people visited it or called it home at the beginning of the nineteenth century. By the twentieth century, the American beach had become the summer encampment of presidents, a common destination for millions of citizens, and the site of rapidly growing beachfront communities. Shipwrecked tells the story of this epic transformation, arguing that coastal shipwrecks themselves changed how Americans viewed, used, and inhabited the shoreline. Drawing on a broad range of archival material—including logbooks, court cases, personal papers, government records, and cultural ephemera—Wells examines how shipwrecks laid the groundwork for the beach tourism industry that would transform the American beach from coastal frontier to oceanfront playspace, spur substantial state and private investment alongshore, reshape popular ideas about the coast, and turn the beach into a touchstone of the American experience.

This story is based on one found on a papyrus scroll of hieroglyphs from the nineteenth century B.C., Egypt. It tells the tale of a voyage on the Red Sea to a mysterious and enchanted land of riches located south of Egypt. On his way to the King's gold mines, a sailor is shipwrecked on a magic island, the Island of the Soul. Not long after he arrives, a gigantic serpent with scales of gold appears and reveals to the sailor that he is the Prince of Punt, and is also a lone survivor. The two become good friends, but one day a ship comes to rescue the sailor. Bearing gifts from the Prince, the sailor returns to Egypt with full hands, and a full heart. This is a tale of the surprising (and fortuitous) bonds that unite us, and of the good that comes to us when we least expect it. Tamara Bower's lush illustrations are rendered in Egyptian style, and phrases from the story appear in hieroglyphs with their literal translations.

"[...] Distinguished journalists revisiting key works of reportage. The authors address such ongoing concerns as the conflict between narrative flair and accurate reporting, the legacy of New Journalism, the need for reporters to question their politicalassumptions, the limitations of participatory journalism, and the temptation to substitute 'truthiness' for hard, challenging fact. Second read embodies the diversity and dynamism of contemporary nonfiction while offering fresh perspectives on works by Norman Mailer, Tom Wolfe, Rachel Carson, and Gabriel García Mârquez, among others. It also highlights pivotal moments and movements in journalism as well as the innovations of award-winning writers"--Back cover.

The wreck of the Nottingham Galley on Boon Island and the resultant rumors of insurance fraud, mutiny, treason, and cannibalism was one of the most sensational stories of the early 18th century. Shortly after departing England with Captain John Deane at the helm, his brother Jasper and another investor aboard, and a skeleton crew, the ship encountered French privateers on her way to Ireland, where she then lingered for weeks picking up cargo. They eventually headed into the North Atlantic later in the season than was reasonably safe and found themselves shipwrecked on the notorious Boon Island, just off the New England coast. Captain Deane offered one version of the events that led them to the barren rock off the coast of Maine; his crew proposed another. The story contains mysteries that endure to this day, yet no contemporary non-fiction account of the story exists. In the hands of skilled storytellers Andrew Vietze and Stephen Erickson, this becomes a historical adventure-mystery that will appeal to readers of South and The Perfect Storm.
