The coronavirus pandemic has broken supply chains, closed off borders and disrupted international trade routes. Trade, which in recent years accounted for 54% to 60% of global economic activity, is now set to have a drop in global trade flows by 13% to 32%, according to the World Trade Organisation. Trade is essential for saving lives and livelihoods in times of crisis, as seen with shortages of personal protective equipment, medical supplies and food...

~~Trade finance during the coronavirus pandemic~~

The paper cautions against the notion of a large trade finance "gap," yet highlights the possible rationales and conditions for an effective intervention in support of trade finance. As world leaders have agreed to massively support trade finance, this paper discusses the singularity of the issues related to trade finance in the context of the global economic crisis.

Technavio has been monitoring the trade finance market and it is poised to grow by USD 11.25 bn during 2020-2024, progressing at a CAGR of over 4% during the forecast period. The report offers an up-to-date analysis regarding the current market scenario, latest trends and drivers, and the overall market environment.

~~Trade Finance Market to grow by \$ 11.25 bn during 2020 ...~~

World trade experienced a sudden, severe, and synchronised collapse in 2008 – the steepest drop in recorded history, and the deepest fall since the Great Depression. This column argues that 2020 will show a trade collapse that is far larger since the ' COVID concussion ' is both a demand shock and a supply shock while the 2008-09 collapse was driven mostly by a demand shock.
